

**MODUL-FLEX is a system designed to assemble modular chain conveyors for any application**

**Modular chain conveyors are well suitable to deal with unpacked food products or all those products which require a high level of stability.**

The Modul-Flex system allows maximum flexibility and can be fitted with chains of the major producers: INTRALOX, HABASIT, REXNORD MCC.

The MODUL-FLEX allow both straight and curved tracks to satisfy any layout requirement. The structure is realized in anodized aluminum: plain side for food applications in order to prevent sedimentation, with caves to fix side guides or accessories. Easily adaptable to all the market's requirements it comes in the following standard dimensions:

**Curved tracks:**

- 101 mm (4 Inches)
- 152 mm (6 Inches)
- 203 mm (8 Inches)
- 254 mm (10 Inches)
- 305 mm (12 Inches)
- 406 mm (16 Inches)

**Straight tracks:**

- 508 mm (20 Inches)
- 609 mm (24 Inches)
- 711 mm (28 Inches)
- 813 mm (32 Inches)

On request the system can be adapted to any dimension and accessories (rubber grips or clamps). Also Stainless Steel AISI 304 version is available for washdown applications.

**TYPICAL PRODUCTS**

CHOCOLATE

CHEESE

BLISTER

BAKERY PRODUCTS

BOXED PRODUCTS

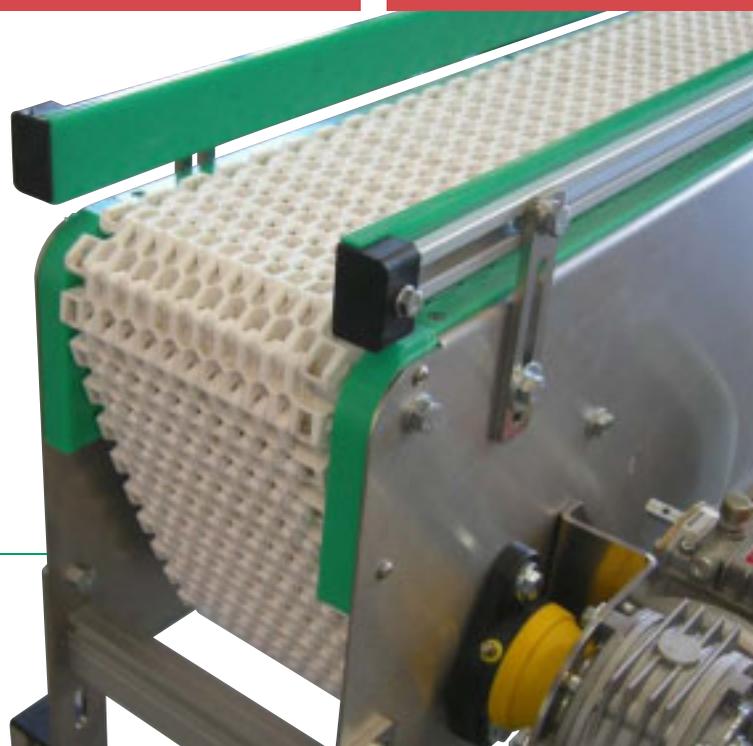

PHARMACEUTICAL PRODUCTS

Stainless Steel Modul-Flex for meat industry

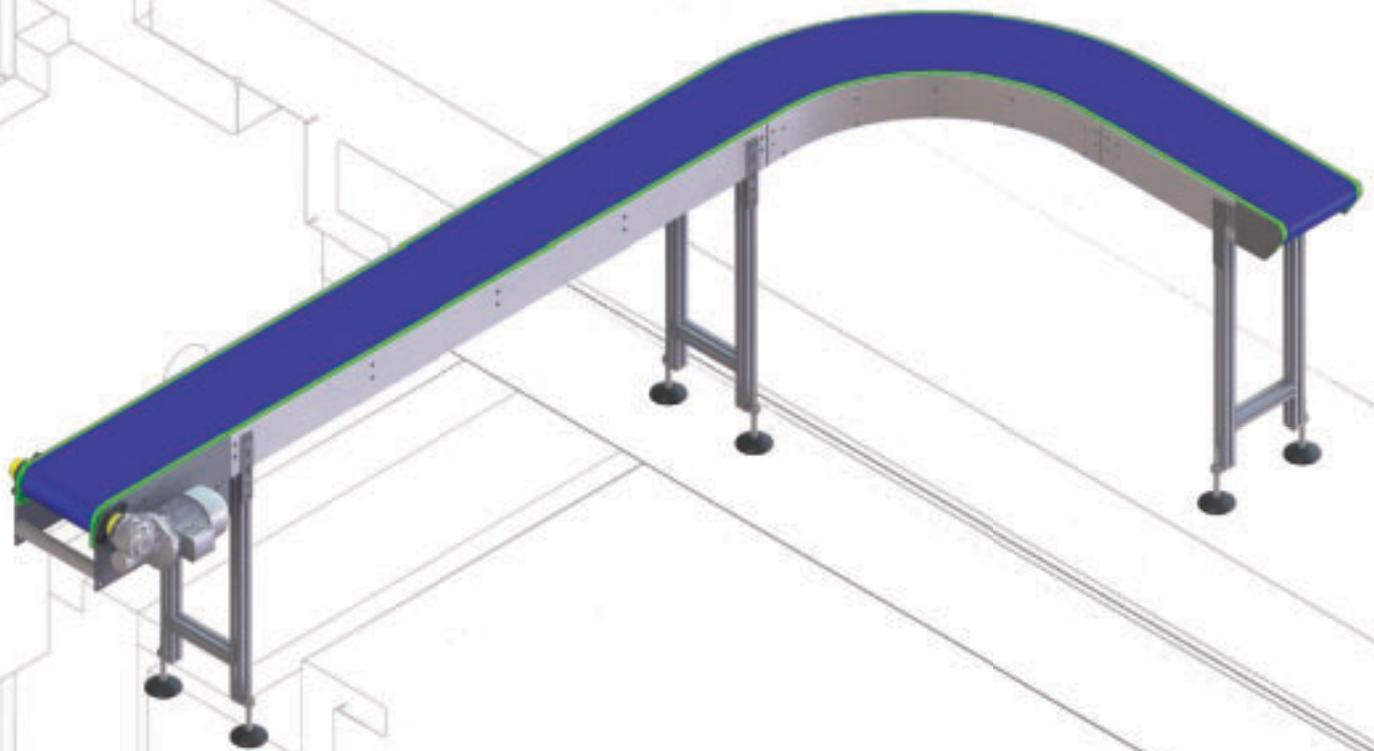

Modul-Flex conveyors for ice-creams in display

## TECHNICAL DATA \*

maximum conveyor length: 30 m - 40 m  
maximum conveyor speed: 60 m/min - 70 m/min

## STANDARD CHAIN MODELS:

	Intralox	Habasit	Rexnord
Straight	Series 1100	M1233	Type 1505
Curved	Series 2400	M2540	N/A

\* These data are rule of thumb. Data may change depending on product weight, track length, number of bends, speeds, motor size and chain type. Please contact our engineering department for further request
